### HONORING AEROSPACE LEGENDS TO INSPIRE FUTURE LEADERS

Since 1962, the National Aviation Hall of Fame has inducted over 250 of the nation's premier air and space pioneers including; Bessie Coleman, Charles Lindbergh, Kelly Johnson, William Boeing, Joe Engle, and Sally Ride.

This year, you can be among some of the heroes already recognized and celebrate with us the heroes yet to come. Join us for this exciting evening widely known as the "Oscar Night of Aviation."

THE NATIONAL AVIATION HALL OF FAME

61ST ANNUAL  
ENSHRINEMENT DINNER & CEREMONY

## THE NATIONAL AVIATION HALL OF FAME

### 61ST ANNUAL ENSHRINEMENT DINNER & CEREMONY

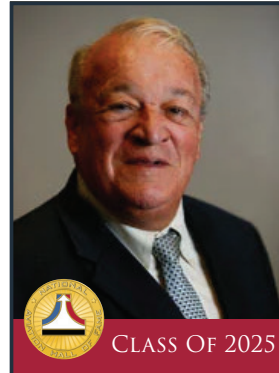

# JOIN US IN CELEBRATING THE INDUCTEE CLASS OF 2025

CLASS OF 2025

#### JULIE CLARK

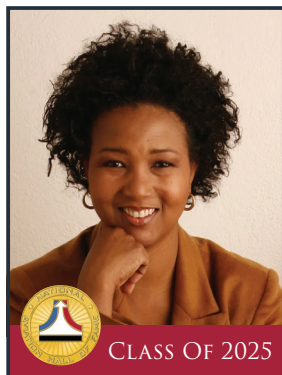

A respected airline captain, award-winning airshow performer, and mentor in aviation. A charter member of ISA +21 she continues to give back to the aviation community through scholarships, and her nonprofit work, inspiring future generations of pilots.

CLASS OF 2025

#### JOHN GOGLIA

Internationally recognized aviation safety expert and the first NTSB board member to hold an FAA Airframe & Powerplant mechanic license. With a career spanning aircraft maintenance, safety advocacy, and consulting, he served on the NTSB from 1995, where he played a key role in raising awareness about airport safety, aircraft maintenance, and compassion for accident victims' families.

CLASS OF 2025

#### MAE JEMISON

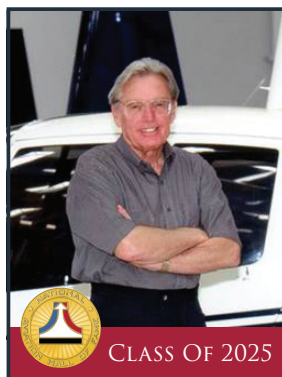

Entrepreneur, engineer, physician, educator, humanitarian, and former NASA astronaut made history as the first woman of color in space on shuttle mission STS-47. She later led 100 Year Starship, which aimed to enable interstellar travel within 100 years. Jemison also taught sustainability at Dartmouth and serves on the boards of major companies.

CLASS OF 2025

#### LLOYD "FIG" NEWTON

Retired four-star U.S. Air Force General, he was the first African American pilot to fly with the Thunderbirds. He has served as an Air Force congressional liaison officer with the U.S. House of Representatives and commanded three wings and an air division, culminating his career as Commander of Air Education and Training Command. After retiring, he became Executive Vice President at Pratt and Whitney Military Engines.

CLASS OF 2025

#### FRANK ROBINSON

Aeronautical engineer and founder of Robinson Helicopter Company, where he designed the highly successful R22, R44, and R66 helicopters, which became top-selling civil helicopters worldwide. A highly experienced helicopter pilot, he has received numerous prestigious awards for his contributions to rotary-wing aviation and aerospace engineering.

CLASS OF 2025

#### PHOEBE OMLIE

The first woman to receive both an FAA aircraft mechanic's license and a transport pilot's license, she set numerous aviation records, won prestigious air races, and was a barnstormer known for her daring stunts. She helped establish flight schools during WWII, and her model became the national standard.
